FULL

BADGE**OVERVIEW**

Keywords associated with the ANSMA logo are sound, afrocentric, youthful, modern, equity and world stage. The soundbars are arranged to to shape of the letter 'm' and a crown. The badge layout variation of the logo can be interchangeably represented as a record, globe and/or a cymbal.

The logo must never be recreated or modified in any way. It should always be used in colour, unless production restrictions prohibit it. In cases such as these alternative one versions found in the asset package may be used accordingly.

MINIMUM SIZE**SIZE AND SPACING**

For legibility, the logo is never made smaller than 1 inch wide in print, or 100 pixels wide on-screen. It is important that clear space be maintained from all surrounding elements in order to distinguish the wordmark within a layout. Clear space is determined by 1x the width of the icon/crown in the logo.

CLEAR SPACE

POSITIONING

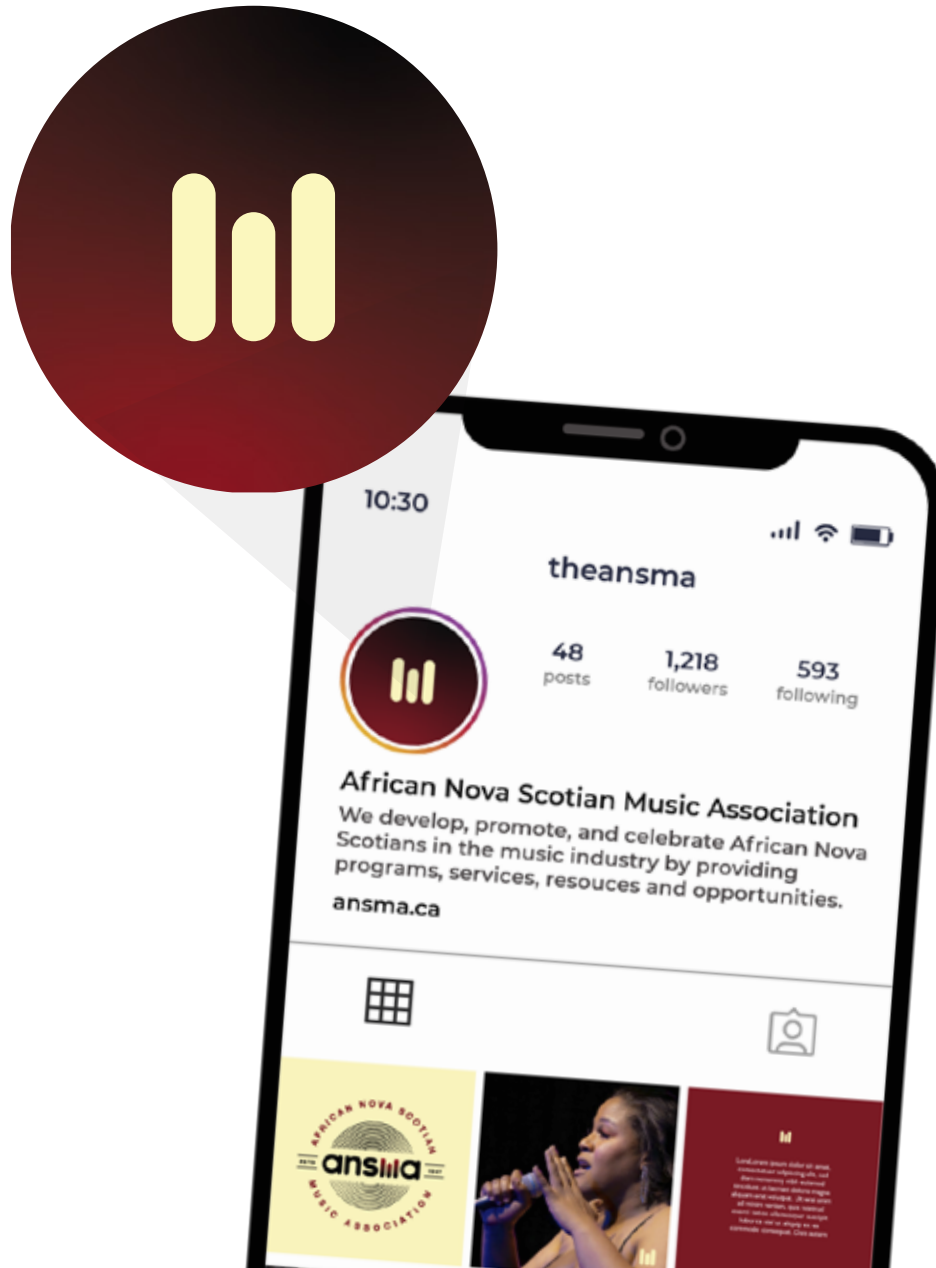

The primary placement of the logo is in the bottom left corner of a layout. Secondary placement of the logo is in the top left corner. Size of the logo should be between a third and fourth of the layout width.

LOGO

SOCIAL MEDIA ICON

The social media icon uses an isolated version of the crown/sound bars from the official logo. For purposes of our branding we will refer to this icon as the ANSMA crown.

The crown can also be used as a subtle identifier on other social media materials, etc.
